THE FALL EXHIBITION.

A Miniature World's Fair.

SPLENDID EXHIBITS OF THE PRODUCTS OF THE MOOSE JAW DISTRICT.

VINE DISPLAYS OF LADIES' WORK—MANUFACTURES, ETC.—THE SUCCESSFUL PRIZE WINNERS.

The exhibition of the Moose Jaw Agricultural Society held on last Wednesday was by far the best ever held in town. The enterprising directors of the society aided by the active and energetic secretary, Mr. J. E. Annable, had been busy during the summer months making preparations for a great exhibition and their efforts were certainly crowned with success. Early in the morning the teams began to arrive from the country and ere long the streets of Moose Jaw presented a gala appearance. The town hall was utilized for the exhibits of grain, roots and vegetables, manufactured articles, dairy products, ladies' work, etc. The horses were shown on the common north of the school, and the cattle near the skating rink.

The following is the list of the prize winners:

HORSES.

Judge—Wm. Smith.

Filly or gelding 2 years old, Andrew Taylor, H L Fysh; one year old colt, Benjamin Smith, H L Fysh; Spring colt 1893, Hugh Thompson, D Malloch, A B Carle; brood mare with foal at foot, Hugh Thompson, H L Fysh, G C Paisley; team in harness, Hugh Thompson, W J Smith, H L Fysh.

General purpose horses, filly or gelding 2 years old, Chas Scott, Andrew Taylor, Ben Smith; one year old colt, J Hans, R Davey; spring colt 1893, Wm McDonald, D McBean, A B Carle; brood mare with foal at foot; Wm McDonald, A B Carle, Chas Scott; best walking team weighing 2400 pounds or over, Geo Godrich, J G Beasley.

Carriage horses over 15½ hands, team in harness, Wm Armstrong, Wm McCarter; single carriage, Hugh Gilmore, John Riddell, D Malloch; brood mare with foal at foot, W R Barlee, H L Fysh.

Road horses under 15½ hands, team in harness, Wilson & McDonald, H McDougall; single roadsters, A Hitchcock, Alex Davidson, Jas McLellan; brood mare with foal at foot, Thos Walsh, H L Fysh, H L Fysh; saddle horse, W R Barlee, J W Robin, A Davies.

Carriage and road colts, Two year old gelding or mare, D Malloch, W J Battell; one year old colt, J E Battell, Ben Smith; spring colt 1893, W R Barlee, H L Fysh, Thos Baines.

Ponies 14 hands and under, Single driving, Wm Lewis, A R Ross; saddle driving, John Howe, C R Randall; pony mare with foal at foot, A R Ross.

Special, Wm Walsh, best colt from Bay Prince, H Thompson; G M Annable, best Suffolk colt from Duke of May, Wm McDonald, J G Beasley; Dalgarno & Smith, best Clyde colts from Scottish Brigadier, G C Paisley, A B Carle; Henry Battell, best road colts from Rifleman, J E Battell, E N Hopkins; R E Doran, best lady rider, Miss Beasley; John Brass, best livery outfit—team, harness, buggy and buggy furnishings taken into consideration, Wilson & McDonald; A E Potter, best farmers outfit—team, harness, and wagon taken into consideration, Hugh Thompson; Alex Wilson (yeoman) best saddle horse and rider—gent, J W Robbin; Fred Green, best lady driver with single horse to buggy, horse not to be judged, Mrs A. Davidson; John Manns, best single driver, Hugh Gilmore; Patterson & Garvin, best shod light horse, G B Fysh; Wilson & McDonald, best road team, Wilson & McDonald; Wm Barlee, best spring carriage colt, Wm Barlee.

In the ladies' driving for Green's special an unfortunate collision occurred by which Mrs. Beasley had the shaft of her buggy broken and consequently she was at a disadvantage in the competition.

white or yellow onions and best collection of vegetables not less than three of each variety, Wm Downs.

In this class Wm Downs, one of our most enterprising farmers, had an array of red tickets that would almost make a man color blind. The exhibit reflects great credit on the genial proprietor of Elm Lodge Farm. The exhibits of R. Royce, A. Dalgetty and D. Copeland, although not extensive were very creditable.

GRAIN AND DAIRY PRODUCTS.

Judges H. U. Rorison and Wm. McCarty.

Wheat any variety, A Dalgetty, N Alcock; J W Glassford, D Copeland, M Johnston; 2 sheaves red fife wheat, B Smith; 2 sheaves oats, A Davies; Sheaf Flax, J Glassford, A Dalgetty.

It is to be regretted that Jas. Hood's fowl were not entered in right section. They should have received a prize as they deserve special mention as a collection of chickens. In the Leghorn class three fowls were shown of exceptionally fine strain but were disqualified through some mistake in entering. The following exhibits, for which no provision was made, were very good: a collection of nearly pure bred fowl and a pair of Maltese rabbits shown by James Hood; a pair of Black Hamburgs and an exhibit of three Guinea fowl.

ROOTS AND VEGETABLES

Judges—H U Rorison and Wm McCarty.

Best 1 bushel Early Rose potatoes, Wm Downs, R Royce, A Dalgetty; best 1 bushel Beauty of Hebron potatoes, R Royce, D Copeland, R Davey; best half dozen Swede turnips, Wm Downs, A Dalgetty; best 1 dozen, Yellow turnips, Wm Downs; best half doz. SILVER AND GRAIN VALUES.

Mr. H. Coubrough, writing in the San Francisco Evening Post traces, as follows, the remarkably close connection between the prices of silver and grain, making this fact the plea for a strong argument in favor of the adoption of bi-metalism by the United States *couste que couste*:

"The close connection between the value of wheat and silver is well illustrated in these New York quotations, showing the tenacity with which the average price of a bushel of wheat has adhered to the value of an ounce of silver:

Year.	Wheat.	Silver.	Year.	Wheat.	Silver.
1872	\$1.47	\$1.32	1883	\$1.13	\$1.11
1873	1.31	1.29	1884	1.07	1.01
1874	1.43	1.27	1885	.88	1.06
1875	1.12	1.24	1886	.87	.99
1876	1.24	1.15	1887	.89	.97
1877	1.17	1.20	1888	.85	.93
1878	1.34	1.16	1889	.90	.93
1879	1.07	1.12	1890	.83	1.04
1880	1.38	1.14	1891	.88	.90
1881	1.11	1.13	1892	.80	.85
1882	1.10	1.13	1893	.87	.73

And the reason is obvious. The Indian ryot or Russian peasant is willing to sell his bushel of wheat for an ounce of silver. He always has been willing and so far as we can see always will be. Consequently the American farmer has also to accept an ounce of silver for a bushel. The difference is that in India and Russia the purchasing power of an ounce of silver is as great as ever. Here in America, thanks to our currency legislation, it is not so.

Now, if this sort of thing is to go on and silver is to go still lower, wheat will have to follow until instead of 60 cents a bushel the American farmer may have to take 50 cents or even 40 cents a bushel. There is but one remedy, and that is free coinage which will give us 1.29 an ounce for silver and 1.29 for a bushel of wheat.

Bankers tell us that if we have free coinage we shall have panics. They may be right. *Quien sabe!* But the disease is desperate and requires a heroic remedy. Let us have free coinage and \$1 a bushel even if we are to have panics thrown in."

What, of course, adds to the interest of Mr. Coubrough's arguments are the facts that our own Canadian wheat values are naturally dependent on the same courses as those traced above, whilst the re-adoption of bi-metalism by the United States would undoubtedly tend to an almost complete rehabilitation of the value of silver and consequent rise in the price of wheat throughout the world.

IMMIGRATION.

The Regina Standard of a recent issue has the following regarding an immigration policy for the local government of the North-West: We contend that it is not the bringing in of new settlers, so much as the looking to the necessities, contentment and comfort of those we have already induced to come in, that tend to the upbuilding of a new country. Every province of the Confederation is represented among the settlers of this North-West. England, Scotland, Ireland and Germany are well represented. The border states of the great republic that is next door neighbor to us, are all represented here

Let the Local government bend its every energy to the betterment of these people's condition. This is its first and at present its only duty. Let Mr. Haultain make effort to devise means whereby those who come here buoyant with hope, and who are bravely struggling against the adversities incidental to pioneer life, may be enabled to realize a reasonable measure of their expectation. Let him do this and we are convinced that it will be altogether unnecessary that he should continue to send hired "spouters" to induce our friends and relatives to come hither to abide with us. Silent messengers carried by the mails across the broad Atlantic, or to the eastern seacoast and over the border, will, at the fireside of those who eagerly await and carefully scan them, do more effective work than thousands of well paid orators speaking in public halls and loaded down with cereals, plants, pamphlets and lime light paranoias.

We do not wish it inferred that our people are in a state of general discontent, but it cannot be denied that there is a great deal of it. The duty of endeavoring to remove this discontent does not lie with the local government alone. It has not given rise to it. An excessively high tariff and freight rate extortions, together with frequent and sometimes vexatious changes in land regulations, are the principal sources of it. The local government cannot remove these. The assembly has done its duty in frequently memorializing the federal authorities regarding them. But the meagre grant which is handed us for internal Territorial purposes should in our opinion be used exclusively for such purposes. Let not the grant to schools be reduced in order to enable a few thousand dollars to be frittered away on fanciful immigration schemes. Let the agricultural societies be even more liberally supported than at present. Let us have more and better roads, culverts and bridges. During the hard times, consequent upon the low price of grain, let the revenue be spent in the country, and let it be as widely distributed as possible. We have as fine a country as the sun ever shone upon. During two decades it has been extensively advertised—by methods wise and otherwise. The Dominion government has spent thousands, yea millions of money to induce population. If the results from this vast expenditure are unsatisfactory, what can we expect to achieve with \$3,000! The annual federal vote for immigration purposes does not fall far short of a sum equal to the whole Territorial revenue. Why are not the results commensurate with the expenditure? Are the silent messengers at work counteracting the effect? If so our advice to the local government, to devote its best attention to the welfare of the immigrants we now have, may contain a valuable pointer for the federal government also.

NOTES AND COMMENTS.

A newspaper man, who evidently believes in telling things just as they are, says:—"Do not swear. There is no occasion to swear outside of a printing office. It is useful in proof-reading, indispensable in getting forms to press and has been known to assist in looking over the paper when it is printed, but otherwise it is a very disgusting habit."

The Calgary Tribune offers some sensible advice to farmers when it says:—"If you wish to avoid the payment of heavy freight rates over railways, turn your hay into beef and mutton; turn your grain into pork and poultry. Make hams and bacon; can all your poor beef and mutton. When distant from your ultimate markets get your farm products into the most concentrated form possible."

The race between the Pullman and Wagner Palace Car Companies is going on with great vigor and the traveler wears a grin of solid satisfaction. Both companies are making every effort to beat the other in matters of comfort, elegance and safety, and the traveler is getting the benefit. The degree of perfection to which both of these companies are bringing their cars is wonderful, and it is hard to see where they can make any more improvements. The enormous strides made by the Wagner Company in the past four or five years are worthy of record.

SALMAGUNDI.

To point a moral and adorn a tale?
—JOHNSON

The principle of sparing the rod was certainly not in favor in "ye olden tyme" as witness the following extract from the correspondence of Henry 4th:—"I complain of you not having sent me word that you had whipped my son, for I desire and order you to whip him every time that he is obstinate or naughty, knowing well from my own case that there is nothing in the world which does more good; I know by experience what good it did me, for when I was his age, I was whipped a great deal."

The stale, flat and unprofitable remarks that are usually made upon the weather have very often the additional demerit of being untrue. With the wind chilling one's marrow and the rain spoiling one's favorite coat, the well-meaning but misguided individual is in error when he says "nice day." This is an error into which I have occasionally seen people fall. The gentleman whose collar is like a concertina and whose face is like the proverbial beet, has a good deal to bear when asked: "Is it hot enough for you?" A gentleman in this condition was asked this question once, in my presence, last summer, and I immediately rebuked the interrogator. The same question had, no doubt, been pestering the sufferer a dozen times before, and besides it was a self-evident proposition. Probably when some people reach the bourne of brimstone, their first question will be "Is it hot enough for you?"

The London Hospital prescribes this regimen for literary workers:

They should never go for more than eight hours a day. Early rising would be good for most of them. A cup of coffee and a piece of toast at half-past six might be followed by an hour's work from seven to eight. The whole hour between eight and nine should be devoted to a thoroughly good breakfast and a short walk. Work from nine to twelve. Half an hour should then be spent in gentle sauntering in the fresh air, and a light lunch should follow—say a chop and bread, with a modicum of light pudding, accompanied by a small glass of lager beer. From one to two a pipe and a saunter, and at two a cup of black coffee. From two to four work. At four a cup of afternoon tea and a rest until five.

From five to six or half-past work, and at half-past six the real labors of the day should be over and completed. At seven a good, well-cooked, appetizing, slowly-eaten dinner, followed by one cup of black coffee, but no tea. At a quarter to eleven a small cup of cocoa and one or two pieces of toast. At eleven bed, and sleep until six or half past six. The brain worker should not work more than five days a week in this fashion. He should have two days of leisure in the week. The first of these should be devoted to brisk and thoroughly fatiguing exercise in the open air, and the second to lounging, a little light reading and the like.

Trousers appear to have been introduced into Rome at a comparatively late period and are a part of the military uniform. They were worn by the Roman soldiers represented on Trajan's Column as well as by barbarians. The Greeks had never adopted them. With their instinctive sense of beauty they had recognized that these are the only garments that cannot possibly be made graceful. A sleeve may become a part of the drapery of a figure, a trouser leg is more obstinate in its ugliness. If tight it bags at the knees on the third wearing. Yet this is perhaps its least objectionable shape. If somewhat loose it takes petty and meaningless folds. Some Oriental nations have tried to disguise it as a skirt, but the result is not entirely satisfactory. If the trousers do not appear to give freedom to the leg they have lost their principal merit. Compromise, which is the life of politics, is the death of art, which should always struggle after an ideal. So thought the Greeks when they entirely renounced for themselves the barbarous pantaloons.

The Old, Old Story.

BRANTFORD, Aug. 28.—The old, old story crops up again here, and Frank Elliot is the narrator this time. He says he has for six years been a victim of kidney disease and could get nothing to cure or relieve him. Dodd's kidney pills did the business in quick time and now he is well and happy. Mr. Elliot learned of the efficacy of these pills from accounts published of Archie Rymal's case. This gentleman, it will be remembered, was cured of paralysis, consequent of kidney disease, by Dodd's kidney pills.

W. C. T. U. COLUMN.

The Work of the W.C.T.U.

As an organization of women for the uplifting of fallen humanity, and the elevation of the human race, we have banded ourselves together to try and accomplish this end; and to do this we have the greatest monster of the age to contend with—the Liquor Traffic. A great deal has been said during these last few years about Woman's worth and woman's sphere. This question has been discussed by men of all ranks of society. This is all right. It only tends to bring out hidden talent in the woman, for you know even a woman will turn at last. But, Mr. Editor, one thing we are thankful for is the press. This is a mighty power in the world to-day and the W. C. T. U. have always found shelter under its wing. It is said that the "pen moves the world."

In former years we have found the press to be our most faithful and untiring helper and now in this new country a column has been placed at our disposal which we feel very thankful for. Though the sending of an article or a few clippings to a crowded daily or to local weekly may seem to be of little account, yet some weary eyes will read it, and some heart be cheered; and thus the ripple will be widened until the other shore be reached. At the present crisis, when foes are exulting and friends are doubting, it is especially necessary that we keep steadily working and through the press tell the world that we are going forward to victory, because we have faith in our noble cause as well as an abiding faith in our Great Leader. We will say as Garibaldi when it was pleasantly possible for him to become Dictator of Italy and when such a course was suggested to him, he indignantly replied, "I am not fighting for power or for name but for my beloved Italy." Such is the true spirit of heroism and patriotism, and such is the spirit of the Women's Christian Temperance Union. Woman in herself—forgetfulness, labor for the interest of home, which is the country's citadel.

After the war in the United States was ended, Miss Willard says, the blue and the gray were on each side of the river, and as twilight fell they began to play the martial strains "Star Spangled Banner" and "Rally Round the Flag" and this musical challenge was taken up by those on the other side who replied by "Bonnie Blue Flag" and "Away Down South in Dixie." But after a while it was borne in the soul of a single soldier in one of those bands of music to begin a sweeter and more tender air, and slowly as he played it, they joined with all the instruments on the union side until finally a great and mighty chorus swelled up and down the army "Home Sweet Home," and when they had finished there was no challenge over yonder, and every confederate band had taken up that lovely air, so attuned to all that is holiest and dearest, and the great chorus of the two great hosts went up to God, and when they had finished came from the boys in grey a challenge "Three cheers for home." And as these cheers went resounding through the skies from both sides of the river something upon the soldier's cheek washed off the stain of powder.

Fellow soldiers in the fight for a clear brain, let us be proud to belong to an army that will lift up the "Banner for God, Home and every land." Our organization aims at six points, to meet together for prayer and conference, to educate public sentiment to the stand of total abstinence, to train the young, save the inebriate, to secure the complete extinction of the liquor traffic and to enter into any Christian work to which the Lord may call. If we want to see our land prosper we must not let the enemy come and sow tares while we sleep, let our motto be prohibition for the North West. I ask every Christian to-day whether with all the gospel preaching of the last forty years the drunkards have not been saved and why not? Because the public house still exists, and as sure as we allow this overpowering temptation to consume we shall, so far as the masses

are concerned, preach and pray and work in vain. Drink will mock, and thwart all our efforts, and though we may here and there save one yet for each one saved a thousand will be doomed to a drunkard's hell. What is to be done to run a saloon. It takes boys and who is willing to give one, and if we would not like to give one of our own let us try and save others as well. But some one says you must keep Temperance out of politics. Let me say you cannot do that. Temperance work where it is taken hold of right, leads you into politics (but not party). Politics need Temperance to purify them. The manufacture and sale of intoxicating liquors have been legislated into existence and must be legislated out of existence.

Then, I say, carry your prohibition principles right into the ballot-box then it will be settled right.

Voice of the people and voice of God! and our land will prosper for righteousness and truth exalts a nation.

MRS. T. RICHARDS,
President W.C.T.U.
Moose Jaw, Sept. 29th.

GENERAL NOTES.

The president of a railroad with 50,000 men under him has been compared to the general of an army, and in some points the comparison is correct. He can have his army of 50,000 men in almost any discipline, but he cannot punish breaches of discipline as a general can. The general can call a court-martial and can have the careless or insubordinate soldier imprisoned or shot. The railroad president can only dismiss the offender from the employ of the road.

L'Avenir, of Philadelphia, Pa., makes the following statements in reference to France, on the authority of *La Semaine Religieuse* of Versailles. Increasing—Crime, in 1875, 70,000 criminals; in 1890, 100,000; Diminishing—Births so that instead of being as we were once, the first in Europe, we are now the sixth. Increasing—Divorces, 1,657 divorces in 1884, and 5,457 in 1890; diminishing—marriages, 289,000 in 1884; 269,000 in 1890. Increasing—illegitimate births; within seven years they have risen from five to ten per cent; diminishing—the army, to the extent of 20,000 conscripts since five years. Increasing—drinking shops, 356,000 in 1880; 413,000 in 1890. Diminishing—Harvesters and harvest. Increasing—Taxes. Diminishing—Revenue. Increasing—The cost of living. Diminishing—Morality. Increasing—Immorality. Diminishing—Confidence.

The Empire of the 27th ult. says: Before adjourning the North-West Assembly passed a resolution in favor of the maintenance of the mounted police force at its present strength. The motion had the support of almost the entire House. Mr. Haultain and Mr. Cayley both spoke in favor of it. One gentleman only is reported to have objected and it is not surprising to hear that he was compelled to take a high and humane ground. The love of humanity covers a multitude of covert motives and this humane member rose up because he said the men should be better paid and better treated. He had no other idea of having this good thing done than by reducing the strength of the force. Whether the excellent body of men who police the North West be too few or too many in number, one thing is certain, that they do their work well and nobody ever hears them grumble about their treatment. It would be decidedly illogical to presume that, because they do so well, it is a case of many hands make light work.

THE GREAT SOUTH AMERICAN NERVE TONIC

STOMACH AND LIVER CURE

The Wonderful HEALTH BUILDER & NERVE FOOD
Chronic Diseases are caused by Deranged Nerve Centres at base of the Brain.

LATE discoveries have absolutely proven that the Stomach, Liver, Lungs, and indeed all internal organs, are controlled by the nerve centres at the base of the brain. The manufacturer of SOUTH AMERICAN NERVE TONIC has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases are due to the imperfect action of nerve centres, either within or at the base of the brain and not from a derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.

As all know, a serious injury to the spinal cord, will at once cause Paralysis of the body below the injured part, it therefore will be equally well understood, how the derangement of the nerve centres, will cause the derangement of the different organs of the body which they supply with Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVE TONIC is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is indeed, a veritable Nerve Food and Will Relieve in One Day the varied forms of Nervous Disease and Stomach Troubles.

Nervous Diseases.

This class of diseases is rapidly increasing each year, on account of the great wear and tear of living and labor imposed upon the nervous system. Nine-tenths of all the ailments to which the human family is heir, are dependent upon nervous exhaustion, impaired digestion, and a deteriorated and impoverished condition of the blood. The SOUTH AMERICAN NERVE TONIC is a great nerve food and nerve builder and this accounts for its marvellous power to cure the varied forms of nervous disease, such as Neuralgia, Nervousness, Nervous Prostration, St. Vitus's Dance, Nervous Choking, Nervous Paroxysms, Twitching of the Muscles, Hot Flashes, Mental Despondency, Forgetfulness, Sleeplessness, Restlessness, Nervousness of Females, Palpitation of the Heart, Sexual Weakness, etc., etc.

A SURE CURE FOR ST. VITUS'S DANCE.

My daughter, twelve years old, had been afflicted for several months with St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not swallow anything but milk; I had to handle her like an infant. Doctors and neighbors gave her up. I commenced giving her the SOUTH AMERICAN NERVE TONIC, and the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the SOUTH AMERICAN NERVE TONIC the grandest remedy ever discovered. I would recommend it to everyone.

Subscribed and sworn to before me this May 19, 1893.

CHAS. M. TRAVIS, Notary Public.

A WONDERFUL CURE FOR

INDIGESTION AND DYSPEPSIA.

Loss of Appetite, Weight and Tenderness in the Stomach, Sour Stomach, Pain in the Stomach, Wind upon the Stomach, Nausea and Sick Stomach, Sick-Headache, Hiccough, Water-Brash, Heartburn, Vertigo and Dizziness, Sleeplessness, Frightful Dreams, etc.

The Stomach suffers more than any of the other organs from disease, because into it are taken so many indigestible and irritating substances as articles of food. In its great effort to digest these, it soon becomes weakened and diseased. Under such circumstances, it is not wonderful, that so many complain of Indigestion and weak stomachs. When the Stomach fails to digest and assimilate the food, the whole body falls into a state of weakness and decay, for Nature has decreed that the body must constantly receive nutriment through the Stomach, to repair the waste of tissue constantly going on in the system.

The South American Nerve

Is probably the greatest remedy ever discovered for the cure of all Chronic Stomach troubles, because it acts through the nerve centres. It gives marked relief in one day, and very soon effects a permanent cure. The first bottle will convince anyone that a cure is certain.

WHAT EX-MEMBER OF PARLIAMENT, REUBEN E. TRUAX, SAYS.

I have been for about ten years very much troubled with indigestion and dyspepsia, have tried a great many different kinds of patent medicines, and have been treated by a number of physicians and found no benefit from them. I was recommended to try SOUTH AMERICAN NERVE TONIC. I obtained a bottle, and I must say I have found very great relief, and have since taken two more bottles, and now feel that I am entirely free from indigestion, and would strongly recommend all my fellow sufferers from the disease, to give SOUTH AMERICAN NERVE TONIC an immediate trial.

It will cure you.

Price, One Dollar

In Bed Six Years

HARTFORD CITY, Blackford Co., Indiana, June 8, '93.
GENTLEMEN: I received a letter from you May 27, stating that you had heard of my wonderful recovery from a spell of sickness of six years duration, through the use of SOUTH AMERICAN NERVE TONIC, and asking for my testimony. I will gladly state how I was cured, and how I was delivered from my pain and suffering.

I was near thirty-five years old, when I took down with nervous prostration. Our family physician treated me, but without benefiting me in the least. My nervous system seemed to be entirely shattered, and I constantly had very severe shaking spells. In addition to this I would have vomiting spells, and there would be from eighteen to twenty days at a time that I could not retain anything on my stomach. Many consultations were held by physicians over my case, but they all agreed that I would never leave my bed. During the years I lay sick, my folks had an eminent physician from Dayton, Ohio, and two from Columbus, Ohio, to come and examine me. They all said I could not live. I got to having spells like spasms, and would be cold and stiff for a time after each. At last I lost the use of my body—could not rise from my bed or walk a step, and had to be lifted like a child; all the time suffering intense pain, and taking almost every known medicine. Part of the time I could read a little, and one day saw an advertisement of your medicine and at the time I could read a little, and one day saw an advertisement of your medicine and concluded to try one bottle. By the time I had taken one and one-half bottles I could rise up and take a step or two by being helped, and after I had taken five bottles in all I felt real well. The shaking went away gradually, and I could eat and sleep good, and my friends could scarcely believe it was I. I am sure this medicine is the best in the world. It was a god-send to me, and I believe it saved my life. I give my name and address, so that if anyone doubts my statement they can write me, or our postmaster or any citizen, as all are acquainted with my case. I am now forty-one years of age, and expect to live as long as the Lord has use for me and do all the good I can in helping the suffering.

Will a remedy which can effect such a marvellous cure as the above, cure you?
A MINISTER OF THE GOSPEL SPEAKS.

To the Proprietor of South American Nerve Tonic.

DEAR SIR,—I have much pleasure in recommending the great SOUTH AMERICAN NERVE TONIC to all who are afflicted as I have been, with nervous prostration and indigestion. I found very great relief from the very first bottle, which was strongly recommended to me by my druggist. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from SOUTH AMERICAN NERVE TONIC, and also cheerfully recommends it to her fellow sufferers.

(My Signature) R. W. S. Barker

J. H. Ross, M. L. A. has made arrangements for a much needed public improvement, viz., a bridge across Thunder Creek, at the foot of River Street, west. Plans and specifications may be seen by enquiring of O. B. Fysh at his residence Manitoba St., and all tenders must be left with him sealed and marked "Tenders for bridge," before 13 o'clock, on Saturday, October 7th, 1893.

The unusual occurrence of a band of Indians filing a contract for the supply of har to the N.W.M.P. stationed at Regina is a striking instance of the advancement of civilization among the aboriginal tribes of the Canadian North-West and is indisputable evidence of the wisdom of the system of agricultural instruction adopted about a decade ago by the Canadian Government. With the progress that is being made in this direction we may expect in ten years hence to find the Indians sturdy competitors with the whites in other branches of industry besides farming.

Molyneux St. John now occupies the position of editor-in-chief of the Free Press, and the following is from his salutatory: "The Free Press is not intended to be the organ of a political section, or of any commercial enterprise; on the contrary it is free to espouse any cause, or the contention of any party that its editor may deem to be in the interest of the country. Where public duty demands criticism, no political party, or any commercial undertaking whatsoever, will be held in abeyance, but though it is sometimes difficult to see merit in opinions differing from one's own the attempt at least will be made to answer political and other falacies without malicious interference or rancorous expression without assuming that the holders of wrong opinions are necessarily of unsound mind or unclean character, but

without any hesitation in calling a spade a spade. And the measure which the Free Press may mete to others it will be content to receive.

While in New Westminster, Hon. W. B. Ives, president of the privy council, and Mr. Fred. White, Comptroller of the North-West mounted police, called at the head office of the Westminster Slate Co., and in conversation with Mr. Jones, manager, stated that the work of erecting new police barracks at several points in the North-West was to be commenced at once. These buildings will be built of granite and roofed with British Columbia slate from the Westminster Slate Co.'s quarry. So says the Columbian.

Rev. Dr. McKay, the Formosa missionary, refers to the treatment he received at the hands of the custom authorities, declaring it to be shameful and the officials ignorant and insolent. He was ordered back on ship and detained several hours, his wife being only released on the interference of Canadian Pacific officials. McKay brought a Chinese student with him, and expects his treatment will cause considerable harm to Chinese missionary work.

A couple of weeks ago, Rev. Mr. Dyke, of Moosomin, preached a sermon, in which he advocated the imposition of a tax on all bachelors over thirty years of age. In reply to the sermon, a correspondent signed "A bachelor," in last week's Spectator, gives a list of men who did not consider bachelorhood a disgrace. The list includes such names as "the Apostle Paul, Newton, Swendenborg, Kant, Voltaire, Walpole, Gibbon, Drake, Beethoven, Richelieu, Cooper, Grey, Tilden, Washington Irving, Whittier and Montaigne."

Assistant Post Office Inspector Phinney is making a reputation for himself in ferreting out individuals who endeavor to defraud Her Majesty by means of "bogus" letters. Another Manitoban, in the person of a Mr. Green, of Emerald Hill, near Deloraine has come to grief through falsely representing that he enclosed money in a letter. On information laid by Post Office Inspector Phinney, Green was arrested on Saturday and pleading guilty when brought before the magistrate at Deloraine, was committed for trial at Brandon. The arrest of Green, at Deloraine, on Saturday, adds another to the list of captures made by Mr. Phinney this year.

Tenders for Bridge.

NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the conditions governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location for the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 1,500 feet in length, nor more than 600 feet in breadth. A location for mining Iron or Petroleum shall not exceed 100 acres in area.

On discovering a mineral deposit any person may obtain a mining location, upon marking out his location on the ground in accordance with the regulations on that behalf, and filing with the Agent of the Dominion Land for the district, within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon paying to the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent therefor, \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS,

Deputy of the Minister of the Interior. Department of the Interior, Ottawa, July 1890.

Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba and the North-West Territories, except 3 and 26, which have been homesteaded, reserved to provide good lots for settlers, or other purposes, may be homesteaded by any person who is sole head of a family, or male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

HOMESTEAD DUTIES.

Under the present law homestead duties may be performed in three ways, and on making application for entry the settler must declare under which of the following conditions he elects to hold his land:

1. Three years' cultivation and residence during which period the settler may not be absent for more than six months in any one year without forfeiting his entry.
2. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next ensuing, on application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year. 10 acres to be broken the second year and 25 acres the third year.
3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof) breaking five acres the first year, cropping those 5 acres and breaking 10 acres additional the second year, and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

APPLICATION FOR PATENT

may be made before the local agent, or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands of his intention to do so. When, for convenience of the settler application for patent is made before a homestead inspector a fee of \$5 is chargeable.

SECOND HOMESTEAD

may be taken by anyone who has received a homestead patent or a certificate of recommendation countersigned by the Commissioner of Dominion Lands upon application for patent made by him, or had earned title to his first homestead, or prior to the second day of June, 1890.

INFORMATION.

Full information respecting the land, timber, coal or mineral laws, and copies of these regulations, as well as three respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.
